

AMELA Board Meeting  
3/10/19

Meeting Time: 9:32pm – 9:48pm

Members Present:

Gavin Kremer  
Clara Nguyen  
Zach Kaufman  
Kendall Haworth  
Eli Zupke

Goal for this meeting:

Complete login page, have front-end validate passwords, error messages, and begin on media pages

What was accomplished:

Gavin connected front-end login page to backend authentication. Also had to change database models slightly in the process. Got logging in to work successfully and persist, and made index require active user.

Zach had to fix problems that arose on our admin site, and made a very rough media page outline.

Kendall made the create user button actually redirect to user creation, got more acquainted with mysql.

Clara made forms show errors when middleware can't complete request, and made the form enforce correctness before sending requests. Also created the login page, and a homepage that displays for logged in users.

Eli had other commitments

Goals for next meeting:

Zach will continue investigating admin account problem  
Gavin and Kendall will deal with backend for the movie page  
Eli and Clara will make said movie page display properly

Meeting Adjourned
