

AMELA Board Meeting  
2/16/19

Meeting Time: 8:35pm – 9:44pm

Members Present:

Gavin Kremer  
Clara Nguyen  
Eli Zupke  
Zach Kaufman  
Kendall Haworth

Previous Goal: complete functionality section and user interface section

What was Accomplished:

Gavin wrote Interface section, and additionally on security, logging, and streaming in the functionality section, and added several amendments to various other parts of functionality section.

Zach read through functionality and supplemented parts he thought was missing. Also looked into technologies we could use, specifically front end options like Django.

Eli did light editing work over functionality section. Research into technologies we could use. Looked for information on SRS formatting, most notably suggests assigning unique ID's to each requirement to make it easier for the team to track and accomplish them.

Kendall wrote the log in features, user media subscriptions and media pages in functionality section.

Clara wrote billing, user pages, and heavy editing to other sections. Also amended other parts of the functionality section

Group resolved all issues resulting from writing functionality section

Group decided Monday, Tuesday, and Wednesday will meet at 9:30, Thursday, Friday will remain 8:30

Goals for next meeting:

Eli will update functionality section to format he proposed.

Gavin will work on Scope

Zach will work on performance and help with Scope

Kendall will work on Hardware section

Clara will be able to assist for brief times and will thoroughly edit/format the SRS.
